ADAPTIVE REFIT™ DESIGN

GOOD AS NEW? MAY WE BE SO BOLD AS TO SAY BETTER THAN NEW.

Our Adaptive ReFit design integrates the soul of classic cruising with modern yacht-like design for downsized passenger capacity, and the latest technological advances in green propulsion like battery storage systems to reduce emissions while in port, and solid oxide fuel cells that reduce air and noise pollution for passengers as well as coastal residents.

With Adaptive Refit, Blue World can build in breakthrough technologies that enable more efficient, sustainable operations, and a longer life for the vessel.

LUXURIOUS REFURBISHED MATERIALS AND OTHER FEATURES FAR TOO COSTLY TO BUILD NOW THAT EVOKE THE SOUL OF CRUISING

THINK OF IT AS YOUR OWN 220 METER PRIVATE YACHT
